SUBJECT: FDA position on labels for genetically modified food

[Message]

I'd like to be able to protect myself and my family from genetically modified foods by buying only old-fashioned God-given species of nutrition. The only way this can happen is if the FDA allows us consumers to receive truthful information on labels. No matter how many people tell me GM food is safe, it's still my right to buy natural, organic produce. Please instruct thte FDA accordingly.

Yours truly,
James A. Hall, III
